## Summary of Qualifications

---

- **Proficient:** Python, Java, HTML/CSS, JavaScript, JQuery, Racket.
- **Familiar:** C/C++, Firebase, Android, Scikit-Learn, Pandas, Matplotlib.

## Projects

---

### SumNotes

September 2017

*Python, HTML/CSS, JavaScript, JQuery, Flask, SQL Hack the North Winner – Best Use of Cockroach Database*

- Created a web app that autonomously takes notes in lectures or meetings.
- Performed speech-text conversion using the **Google Speech API**.
- Summarized key points using the **SUMY API**.
- Implemented a user login system through a **Cockroach Database**.

### Algorithmic Trading

July 2017

*Python, Scikit-Learn, Pandas, Matplotlib*

- Developed a machine learning stock trading algorithm with a **Decision Tree Classifier**.
- Accessed historical stock prices using the **Google Finance API** and **Pandas**.
- Predicted stock price movements with **75% accuracy**.

### NBA Court Vision

December 2017

*Python, Scikit-Learn, Pandas, Matplotlib*

- Created a data visualization tool to help coaches detect areas of the court to prioritize their defense.
- Analyzed NBA players' gameplay by examining their shooting habits throughout a regular season.
- Simulated players' shooting with machine learning through a **Decision Tree Classifier**.

## Experience

---

### Computer Science Instructor

June 2016 – June 2017

*Sir John A. Macdonald S.S.*

- **Improved class attendance by 40%** (50 to 70 students) through restructuring club curriculum.
- Designed and delivered lessons which covered programming languages and computer science concepts.

### Engineering Outreach

July 2016 – December 2016

*University of Waterloo*

- Organized STEM related lessons and activities for students from ages 4 to 14.
- Explored topics such as HTML/CSS, JavaScript, Python, data structures, app development and GUIs.

## Education

---

### University of Waterloo & Wilfrid Laurier University

(Expected) 2017 – 2022

*Bachelors of Computer Science & Bachelors of Business Administration – Cumulative Average: 95.0%*

*Relevant Coursework: Designing Functional Programs, Elementary Algorithm Design and Data Abstraction*

## Awards

---

- 2017 **Offered a Schulich Leader Scholarship:** Offered an **\$80 000 scholarship** by Western University.
- 2017 **René Descartes National Scholarship:** Awarded a **\$25 000 scholarship** by the University of Waterloo.
- 2017 **Governor General's Academic Medal:** Graduated with the top academic standing **out of 250** students.
- 2016 **ECOO Programming Provincials:** Placed **9<sup>th</sup> out of 400+** teams that initially entered this contest.
- 2015 **Galois Math Contest:** Placed in the **top 0.5%** internationally.
